

## ***Do you have control of your Sensors?***

RM&C Sensit is the world leader in ceramic strain gauge technology and the only UK manufacturer of ceramic pressure sensors.

### ***Ceramic Pressure Sensors***

- Superb chemical & corrosion resistance
- Small size
- Pressure ranges from 100 mbar to 1000 bar

### ***OEM Transducers***

- Custom specific design
- Mechanical/Electronic interface
- Cost effective

### ***Pressure Transmitters***

- Multiple classes of accuracy
- Stainless steel housing, others available
- IS versions available

***COST EFFECTIVE***

***CUSTOM DESIGN***

***READY TO USE  
SENSORS &  
TRANSMITTERS***

### ***Applications***

- Automotive
- Compressors
- Concrete
- Data logging
- Hydraulics
- Inkjet printers
- Landfill
- Locomotive
- Water

Our experienced technical sales team would be happy to discuss and advise you on all aspects of these and other products and services available from RM&C

# Pressure Specifier

**“Fax us the figures - we’ll help you”**

Calibrated range		Electrical connection	
Cable length if required		Intrinsically safe to EEx ia 11C T4	YES/NO
IP rating 65/68		Pressure port	
Accuracy NL & H		Price target	
Compensated temperature		Quantity	
Media		Present supplier	
Temperature range		Delivery time	
Thermal error		or application details:	
Supply voltage			
Output mV/Volts/mA			

**Fax 01256 882986**
