

## Do you have control of your Temperature Measurement?

Industry standard for over a century. The UK's leading manufacturer of thermocouples and temperature probes.

- Direct from manufacturer
- Short lead times
- Made in Sheffield, UK
- Nationwide service backup
- Custom designs/systems
- Full UKAS calibration available

**EASY TO USE**

**ACCURATE**

**RELIABLE**

**LOW MAINTENANCE**

**COST EFFECTIVE**

### Features

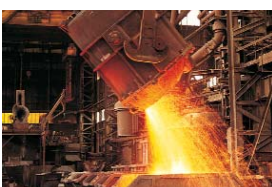

- -196 to 1800 °C temperature range
- Mineral insulated thermocouples
- Mineral insulated PT100s
- Fabricated thermocouples & PT100s
- MRT for tank gauging
- Rare metal thermocouples - type R, S, B
- Wide range of sheath materials
- Complete range of flexible thermocouples
- Accessories, from stock

### Applications

- Aerospace/NADCAP
- Steel processing
- Glass/ceramic
- Food processing/brewing
- Heat treatment
- Oil and gas pipelines
- Hospital
- Injection moulding for rubber/plastics
- Power generation

# Temperature Specifier

**"Fax us the figures - we'll help you"**

Thermocouple element type		Cable type/length	
Resistance thermometer detector		Media	
Class or tolerance		Process connection	
Temperature range		Calibration requirements:	
Probe diameter			
Probe length			
Sheath material			
Simplex or duplex			
Cold end termination			
Sketch or additional technical information:			

**Fax 0114 2434838**
